G G C  
These friends of mine they're with me all the time  
D  
Feeling sad or feeling fine, when it rains or if it shines  
G (B-C-C#-D)  
These friends are mine  
G  
There're even with me when they're gone  
C D  
cause no matter where we roam I'm never far from home  
G  
And I know I ain't alone with these friends of mine  
F C G C  
We've seen lovers come and go sometimes fast but mostly slow  
G C D  
When I'm really feeling low all I need to know is  
G C  
That these friends of mine are with me all the time  
D  
They help me hold the line and get through the daily grind  
G  
I need these friends of mine  
F C  
You know in these past few years  
G C G C  
We've faced our share of fears Lord we cried a million tears

D  
But those ole grey skies seem to clear  
G C  
With these friends of mine they're with me all the time  
D  
I'm the singer they're the rhyme and I don't need another sign  
G (B-C-C#-D)  
Not with these friends of mine  
G C  
These friends of mine they're with me all the time  
D  
We walk a long thin line and I got Cherry on my mind  
G  
I need these friends of mine  
D  
I don't need another sign I'm so grateful for this time  
G  
With these friends of mine
